CAREER OBJECTIVE

Seeking a Software Engineer (SEO) role at Innercircle Softech Pvt Ltd to leverage my B.E. (CSE) background and foundational knowledge of Search Engine Optimization principles, data analysis, and technical web standards. Driven to translate these skills into operational proficiency during a performance-driven final-semester internship, with the objective of securing a full-time position upon graduation.

EDUCATION

- Computer Science and Engineering | IV year 2025
- MRK Institute of Technology | GPA (8.17)
- 12th at Government girls Hr Sec School | Tamil Nadu - 2022

INTERN EXPERIENCE

- Mobile App Development - Scode Software Solution company and assisted in building Android applications using modern frameworks and tools.
- Full-Stack Development - Via career shaper company proficient in Java and Spring Boot (Backend), Angular (Frontend), and MongoDB (Database). Utilized Eclipse IDE for development.

SKILLS

- SEO - Semrush / Ahrefs, Google Search Console (GSC), Google PageSpeed Insights
- Back end - Python, Java
- Front end - HTML, CSS, Java script
- Tools & OS - VS Code, Windows

PROJECT

- Built student information using java, create back end spring boot in eclipse and create front end using angular.
